

CCNA® – Aligned to Cisco Certified Network Associate

Cisco Industry Certification Information

Cisco certification ensures high standards of technical expertise. Achieving Cisco certification-at any level-means joining the ranks of skilled network professionals who have earned recognition and respect in the industry.

CCNA Certification Information

The Cisco Certified Network Associate (CCNA) certification indicates a foundation in, and apprentice knowledge of networking for the small office/home office market. CCNA certified professionals can install, configure, and operate LAN, WAN, and dial access services for small networks (100 nodes or fewer), including, but not limited to, use of these protocols: IP, IGRP, IPX, Serial, AppleTalk, Frame Relay, IP RIP, VLANs, RIP, Ethernet, Access Lists.
